Integrated Chinese, Level 2, Textbook and Workbook (2nd edition)

Level 2 of Integrated Chinese spans the entire second year of study, introducing 600 additional characters over two semesters. This textbook contains traditional and simplified characters in the same book.

In Level 2, students will encounter topics appealing to their interests, including campus and family life, social issues, and aspects of Chinese culture. A focus on important linguistic structures will help to expand learners' understanding of Chinese grammar. Level 2 also gradually introduces the more formal written-style expressions, often used in news broadcasts and formal speeches.
